Introduction

Astrology is as old as measured time. Although there are many different approaches to astrology, all astrologers appear united in the idea that there is a connection between the heavens and the Earth -- they share one common space. For centuries there has been a misunderstanding concerning the nature of astrology to the effect that the heavens somehow "influence" events here on Earth. This theory of celestial influence has penetrated into the modern world until today it is the main concept or idea of astrology supported by the public -- the lay astrological audience.

Professional astrologers do not hold with theories of celestial influence. Instead, the modern astrologer conceives of the heavens and Earth as united, interpenetrating, and sharing a common space and time. The great cosmic or celestial events happening around and beyond the Earth (eclipses, lineups, and so on) are not seen as CAUSING events to occur on Earth, but as great signatures of events ALSO happening here on Earth. In other words, there is no "cause" in the heavens followed by an "effect" here on Earth. Instead, both planetary and earthly events happen simultaneously and are mutually reflective. Neither is the cause of the other; both are the product of the moment, one acted out in the heavens above, the other here on the Earth below.

While astrologers don't feel that heavenly events are the cause of events here on Earth, they do feel that specific heavenly events are enacted here on the Earth too -- at the same moment. In other words, there is only one grand "play." The great drama enacted in the sky is also acted out (in exact detail) here on Earth in the same instant. Another way to say this is that the Earth is part of the cosmos and shares in that cosmic moment. Scientists have been discovering (for example) that sunspots, solar flares, and solar activity have a very definite (and almost immediate) effect here on Earth. Astrologers tend to feel that all major cosmic events such as eclipses are interactive; they represent an activity also taking place within us and our consciousness.

In summary, astrology is a study of heavenly cycles and cosmic events as they are reflected in our earthly environment and vice-versa -- a vast cosmic clock. Astrologers find the cosmic patterns revealed in the rhythmic motions of the planets a great help in shedding light on the seeming helter-skelter of everyday life. Astrologers may have their heads in the heavens, but only to better guide their feet here on Earth.

We hope you enjoy your Kundali profile. It has been calculated using sophisticated astronomical formulae to ensure high accuracy. On the next page you will find a list of the zodiac positions of your natal planets along with the house cusps for your birth moment.

Your Rising Sign

First let's take a quick look at your ascendant, or rising sign. Astrologers want to know what zodiac sign is rising at birth, since this gives a picture of the way you appear or come across to others.

You wear your heart on your sleeve and always manage to come across as confident and sure of yourself (possibly egotistical). You are very free with your emotions, which nevertheless tend to stay under your control. You are warm-hearted and effusive.

Planet Aspects

The Lights: The Sun and Moon

At the time of our birth, the planets (through their configurations and relationships) tell us something about how things were when we were born. Each planet points to special qualities within us. Yet, of all the planets, the two most important planets to astrologers are the "lights," the Sun and the Moon. From where we stand here on Earth, the great shining Sun by day and the reflecting Moon at night are our constant companions. They have much to tell us as to where we have been and where we are headed.

The Sun: Your Self and Future

From the Sun comes light, that which draws us into life. The Sun represents all the changes we have not yet taken, that part of us that we have not yet experienced but are headed toward. The Sun represents our identity, or self, in that it is toward these that we are moving and developing. Thus, it also represents that which we will become: older people, authorities -- those we look toward, or up to. Our essence, or future. Teachers, gurus, and older (more experienced) people are represented by the Sun. The Sun is "hot stuff," those further up the road of life experience.

You are long-suffering and able to take a lot for the sake of your beliefs and ideals. In this sense, you are very future-oriented. You are intuitive and at home with the psyche and psychological. A sense of the mystic too. You are able to carry ideas and dreams into reality, to make the spirit matter.

Sunii in Pisces

You have a natural ability to grasp spiritual and visionary matters and to put them to work. You can perform with the imagination and metaphysical thoughts like others work with durable things. This is because you understand what is behind and connecting things. Much of your own self-image is wrapped up with your ability to work with images -- dreams and the imagination. You would make a good teacher in areas of music, philosophy, and all that is mystical.

Sunii Sextile Neptune

You find it easy to work with sensitive material, touching upon the more vulnerable areas of

the mind or self. You are able to handle these delicate matters without ever breaking stride, for emotional and tender areas of the human psyche don't phase you. You enjoy getting beneath the surface and have an innate savvy for handling touchy subjects. This is perfect for any research investigation or plain old detective work.

Sunii Trine Pluto

The Moon: The Support System

Here is information about the kind of environment we create around us, our support system. It is not only the surroundings that we set up today, but the Moon also represents our past, the particular history and social background out of which we grew. Aside from our social background, the Moon governs all of the old habits that we have grown beyond. We tend to look down on, or back on, our Moon. It represents those experiences out of which we have come, all those younger souls who are unconscious, or "sub" conscious to our own level. This is why it is said that the Moon is a mystery planet, for it is both our parent and our child: our parent in that out of it we were born, our child in that we can't but respond to others who are now living as we once did.

You are inspired, for humanity is your family and you are seldom bound by tradition or domestic ties. The big picture is what counts most with you, and large-scale movements and group work are the idea. You seldom find personalities interesting and are democratic in the real sense of the word. You are an altruist and love freedom.

Moon in Aquarius

You find it easy to work with other people and tend to pour a lot of energy into those around you. Your home and surroundings reflect this. When it comes to teaching or coaching younger people, you are a natural, always able to motivate and inspire others. With your powerful spirit, you enjoy your strong emotions and have an active social life as well.

Moon Sextile Mars

The Inner Planets: Mercury and Venus

The planets Mercury and Venus have more to do with our internal and personal life than with life outside us. These inner planets are located between the orbit of the Earth and the Sun. We can look to qualities that are inside us. Venus indicates how we appreciate and measure our experience, how we value life. Mercury tells us something about how our mind works, how we think and communicate -- our intrinsic brightness.

Mercury: The Mind and Communication

Mercury is the light in our eyes, the ever-changing consciousness within us that moves from idea to idea. Thus Mercury has always represented thoughts, ideas, and the mental process in general. It governs not only ideas, but communications, too. Communications -- by phone, letter, spoken, or however -- are ruled by Mercury. Also thoughts, connections, phone wires, and everything that connects and conveys -- even conversations.

You are an impartial thinker, democratic to the point of being impersonal. Fascinated by the latest technology, you have very original ideas, an inventor. Always thinking of the world as a unity, you are idealistic and believe in putting into practice what is preached. You are group-conscious, community-oriented.

Mercury in Aquarius

You are a heavy-duty thinker and serious student, always ready to work an idea through, reducing it to what is essential. You enjoy mental effort and discipline, and work long and hard at whatever you put your mind to. You could present or teach religious and philosophical ideas, anything where substance and content are at issue.

Mercury Sextile Saturn

Getting personal with you is a real mistake, for it always manages to plunge you into turmoil. You resent probing on the part of others, yet are fascinated by behind-the-scenes and so-called "secret" information. You may prefer not to think about anything below the surface, but even this is not a constant, and this inner conflict produces more than its share of tension.

Mercury Square Pluto

You are never funnier, wittier, or more at your mental best than when in a group or lost in a deep conversation with a partner. You may even neglect your personal interests by devoting so much of your time and energy to thinking about other people.

Mercury Opposition Ascendant

Your love of talk, ideas, and expressing yourself to others may mean that your family and even your job may suffer. Your mind is often on your appearance, how you come across and relate to the crowd, to those around you.

Mercury Square Midheaven

Venus: Values and Discrimination

Venus rules our values and sense of appreciation. When we appraise or appreciate something, whether that be another person or a new car, this is Venus -- the sense of love and compassion we may feel. By the same token, this planet rules enjoyment too. Whether it be self-appreciation or just plain old decadent self-enjoyment by having a good time, this is Venus. When we go shopping or are on a spending spree, it is Venus that allows us to appreciate and value all the good things of life.

Marriage for convention's sake, if at all, is your motto. Let's not get too personal or emotional. A friend's friend. You love to work for a great cause or purpose, and a better world is the place to be. You appreciate what's fair and democratic, and feel most happy in a group or community.

Venus in Aquarius

You love other people, large and small groups, and relationships in general. Your social life could be at the expense of your personal interests and even of your family or job.

Venus Opposition Ascendant

You love other people, large and small groups, and relationships in general. Your social life could be at the expense of your personal interests and even of your family or job.

Venus Square Midheaven

The External Planets: Mars, Jupiter, Saturn

The major planets outside the Earth's orbit (external to us) are Mars, Jupiter, and Saturn. These are the planets of the outer world -- life as we find it outside ourselves. Mars tells us something about the drive and energy we have, Jupiter shows us how to best channel that energy, and Saturn decrees what sort of material or territory we will be passing through. Again: Saturn tells us about the territory we will be going through, Jupiter the way or path through it, and Mars what kind of push or drive we can count on to keep going.

Mars: Drive and Emotions

Mars is the planet of emotion and inner motivation or drive. When we search for the meaning of something, life or whatever, it is Mars that urges us on, keeps us searching. Mars also drives us against things, too and sends us into war and combat. The urgency of Mars, the search for meaning, is identical to the need for union, yoga, and marriage. Mars is the planet of union, and marriage is the most common form of yoga. When we have questions about the opposite sex, we are looking at the planet Mars.

You are powerfully motivated, even driven, have a hot temper, and tend to be impulsive. You are seldom very reflective when it comes to doing something, but act first and ask questions later. Your more fiery emotions are always an insult away. You have blind courage and sheer guts. Aggressive. A self-starter. Energetic.

Mars in Aries

A born coach or teacher, you are at home in the physical and "doing" areas of life. An inspiration and driving force in the lives of others. Quite able to manage a very active and strong emotional life. Strong spirit. Attractive. Direct, perhaps loud.

Moon Sextile Mars

You are driven when it comes to fulfilling your ambitions and carving out a career. There is no lack of energy or drive here, and nothing can stand in your way. Everything is poured into making the right moves, the correct decisions. You are outgoing, enthusiastic, and always diplomatic -- everybody's favorite. You have a natural instinct for making the correct move at the right time. Politics or some public career seem inevitable.

Mars Conjunction Jupiter

You hate a lack of clarity, especially when it comes to your feelings and emotions. This is a less than ideal world as far as you are concerned, and you are for making the best of it. Whatever dreams and ideals you may have had are somehow shut off from the day-to-day realities you face. You would rather ignore your dreams than be tortured by their remoteness. You are suspicious of pie-in-the-sky and have an abnormal fear of being deceived, in particular

in matters of love and feelings. A sign of emotional tension.

Mars Square Neptune

Jupiter: Career and Life Path

Jupiter is the planet of success and simple survival, the way we have to solve the problems that confront us. Thus Jupiter has to do with the way in which we can be successful, our vocation. The Hindu word for Jupiter is Guru. Jupiter is the guru and guide, the way we go through life, our life path or vocation. Jupiter is the method each of us has for dealing with the laws of life, our Saturn, or limitations. Jupiter is the light or path. Jupiter provides us with our sense of direction, the path we are on, the way we handle life. It affects how we approach life's problems. It has always been an indicator of how successful we may be, our vocation.

You could pursue a career as a leader or pioneer. You tend to be the one who takes the initiative and are courageous and often fearless to the point of being foolish. Success for you in most things is second nature. Always "walking point," you tend to be a loner, a warrior. Confident, single-minded, you are sometimes rash but are always direct -- straight out.

Jupiter in Aries

Your career is most important, and your drive and ambitions in that direction are almost unlimited. You have an uncanny intuitive sense of when and how to make the right moves. Success to you is a succession of successes. You move forward.

Mars Conjunction Jupiter

You are very "bearish" when it comes to security and seldom make a move that does not strengthen your position. You pursue responsibilities the way others pursue pleasure, and you even invite obligations. Career moves are always solid, based on sound principles, and may be tied in with the law or authorities -- all that is solid and well-reasoned. You don't invest in anything that is not tried and tested. Truth, religion, and philosophy are subjects of great interest.

Jupiter Conjunction Saturn

Your tendency to compromise and settle for less than you dreamed can be a problem. Given the opportunity, you may choose the path of least resistance, willing to bypass some of the things you always wanted in favor of expediency. Career moves must be given special attention. Tension results when you ignore your own desires (the things you need and want) and take a course of action, job, career, or whatever that can never satisfy. Or worse, you may find yourself in a job that is compromising.

Jupiter Square Neptune

Saturn: Responsibilities

The process of finding out who we are (self-discovery) starts when we come to grips with whatever problems life presents to us and begin to get a handle on them. In other words, if we have not dealt with Saturn, or time (that is, if we don't have some control of time), there is little opportunity for other questions. Saturn rules the laws and limitations of this material world we all live in. Saturn indicates where we are bound to learn, the narrowness that makes our way felt, the walls that make homes possible. Saturn holds us together as much as apart. Saturn is said to be the great teacher, the planet that keeps us from getting carried away in one direction

or another. Although it always seeks to limit and determine any thought, word, or action, it also defines and clarifies. Saturn is called the prince of the material world.

You have a need to be bold, rash, and even a little foolish -- to dare. You may have to work on being alone, on being more aggressive, challenging, and willful. You could have difficulty with leadership, self-assertion, and outgoingness, in general. A need to develop impulsiveness, the pioneer spirit, and pride in self.

Saturn in Aries

A real problem-solver, the more tedious the better. Able to reduce any subject matter to the bare bones. Heavy-duty thinker. Could be very serious or philosophical. Enjoy study and thought. Very methodical and practical in approach.

Mercury Sextile Saturn

Your career moves are always solid, responsible, and based on sound principles. When you make a decision, it is one you can build on and take to the bank. Not frivolous, you don't get involved with superficial projects. You like solid investments.

Jupiter Conjunction Saturn

You have trouble controlling yourself and tend to fluctuate between uninspired routine and crazy binges. Your sense of responsibility and the way you go about organizing your life seem like a prison sentence. You rule out any possibility of change, all spontaneity. You get so set in your ways that you can't help but revolt and break out. Your flings have a total lack of caution. When they die down, you find yourself seeking refuge in the same old routine, and we begin again.

Saturn Square Uranus

You express yourself deliberately and don't waste your words. You have a natural sense of organization and come across as disciplined and careful, perhaps a little too sober.

Saturn Trine Ascendant

The Outer Planets

In the previous sections, we have dealt with planets that we can see with our naked eyes. In general, these planets refer to life as we know and live it and are the so-called historical or classic planets. Beyond these are three planets that are not visible in the sky and which have cycles longer than the average human life span. Since they are beyond Saturn or time, astrologers call them the trans-personal or transcendental planets -- the planets beyond the physical. One of the ways astrologers learn something about our life beyond time (eternal life) is through these three outer planets: Uranus, Neptune, and Pluto. Here we find information on how we discover ourselves (Uranus), how we understand and accept these discoveries (Neptune), and, in time, how we depend and identify with them (Pluto).

Uranus: Break-Thrus & Insights

Our responsibilities can tend to weigh us down, and we each have our particular ways of getting around (or breaking through) the mass of obstructions that tends to congeal around us. The planet that has to do with how we get beyond the difficulties and problems life presents us is Uranus. Here is the way insights come to us, how we discover or come to know and understand ourselves. It has to do with finding new uses for old things, and it rules inventions and sudden insights into our life -- everything that is unusual, eccentric, and out of the ordinary. It is the reverse of the status quo and is always unconventional and heretical. Uranus is, in many ways, the opposite, or undoing of Saturn.

You are innovative in the political and business arena. You find new ways to manage and control things and people. Ever practical, you come up with new or alternate forms of management -- breakthroughs in top-level management and corporate styles. You bring new life to conservative traditions. Your emotions are very staid.

Uranus in Capricorn

You are torn between the radical, rebellious, and independent person you feel yourself to be, and a more conservative and traditional bent. Your organized moments may lack originality, and your crazier moments want caution. An ongoing battle.

Saturn Square Uranus

You tend to be creative and original in your work and career, managing to bring new ideas and spontaneity to bear.

Uranus Trine Midheaven

Neptune: Ideals & Imagination

Even the most hard-nosed of us have moments of real understanding, when things are seen as linked together and one piece. We stop getting the idea in little flashes and just get the whole thing. It dawns on us. We each have our own way of letting go, having communion, and (as the poet wrote) letting "the dewdrop slip into the shining sea." These moments and this state of mind are, in fact, the source for all our imagination. There are many ways of seeing through the separateness in the world to the unity behind it.

The practical is the ideal. Form follows function. You have a dream of being in control -- the puppet master. You are very interested in tradition and tend to be dignified and conservative. You believe in an orderly society led by benevolent monarchs -- those who can see what to do.

Neptune in Capricorn

A born mother to any and all forms of life. Very compassionate and attentive (aware of) the needs of others. Spiritual ideas and concepts are a way of life here. There is deep appreciation, even love for, movies, big ideas, themes. Visionary director.

Sunii Sextile Neptune

You can be self-defeating, often pushing in directions that go against your own stated ideals and dreams. You have an aversion to foggy mindedness and lack of clarity, a fear of being misled or duped. Your feelings tend to compromise your own self-image.

Mars Square Neptune

Your goals and ideals are often in contrast to the actual decisions you make, in particular those regarding career. Your tendency to head in directions that are less than ideal, that don't fit your own dreams and self-image, causes tension.

Jupiter Square Neptune

Pluto: Inner Change and Growth

Pluto is the planet of profound change, starting deep within us and moving toward the surface. It often touches upon the most sensitive psychological areas inside us. Once touched, we have no choice but to change and grow. The most sensitive of experiences, the times of greatest vulnerability, are times of complete identification with an experience, a person, or a thing. We know in these instants that we are looking at our self, what we are. The most personal of experiences is one of complete identification with a person, moment, or idea. Perhaps this is only possible for most of us when we look into our child's eyes, and then only infrequently. Love is not the experience here, but total identification. This is very sensitive stuff. To touch upon this material is to go through deep inner change and transformation -- inner alchemy. Identification and experiencing that life is our own creation and that, in fact, you are I and I am you. This experience breaks us down and humbles. When we touch upon this experience, we cannot but die to what we have been thinking and doing up to now. It reduces us to our most sensitive because -- in a flash -- we see or remember that it all is us, our life.

You tear through appearances in an effort to get beneath, behind, and at the heart or essence. You may find psychology, initiation, and mysticism, and the occult of great interest. Intense personal change and inner growth are lifelong habits.

Pluto in Scorpio

Innate intensity and seriousness are visible to all. A sense of the eternal aspects of life makes authority and leadership positions natural and unavoidable. A gut sense of how to act in stress situations. Lots of charisma. Power.

Sunii Trine Pluto

Your personal life and secret thoughts may be something that you have difficulty speaking about or expressing to others. This can produce tension that gives way to bouts of deep searching and analysis, even gossip. The bigger the front, the more it is hiding.

Mercury Square Pluto

You have strong family, business, or property ties which affect your public image and goals. There may be tricky finances connected with your business or profession. Obligations involving women, research, or detecting are important in your career.

Challenges and Abilities

Focus

These are areas of life where we show intense focus and activity. For better or worse, these qualities stand out and are obvious to all those who come to know us. They are very clear parts of our character.

You are driven when it comes to fulfilling your ambitions and carving out a career. There is no lack of energy or drive here, and nothing can stand in your way. Everything is poured into making the right moves, the correct decisions. You are outgoing, enthusiastic, and always diplomatic -- everybody's favorite. You have a natural instinct for making the correct move at the right time. Politics or some public career seem inevitable.

Mars Conjunction Jupiter 02°23'

You are very "bearish" when it comes to security and seldom make a move that does not strengthen your position. You pursue responsibilities the way others pursue pleasure, and you even invite obligations. Career moves are always solid, based on sound principles, and may be tied in with the law or authorities -- all that is solid and well-reasoned. You don't invest in anything that is not tried and tested. Truth, religion, and philosophy are subjects of great interest.

Jupiter Conjunction Saturn 06°16'

Challenges

Life can be challenging, and things are not always easy. The major challenges in a natal chart are where we can expect increased activity and personal involvement -- ready or not. These critical areas of life can be difficult, and the resulting confusion and possible obscuration often makes it hard for us to see and act with normal clarity. Therefore, when it comes to the following factors you may wish to exercise caution and extra patience.

You hate a lack of clarity, especially when it comes to your feelings and emotions. This is a less than ideal world as far as you are concerned, and you are for making the best of it. Whatever dreams and ideals you may have had are somehow shut off from the day-to-day realities you face. You would rather ignore your dreams than be tortured by their remoteness. You are suspicious of pie-in-the-sky and have an abnormal fear of being deceived, in particular in matters of love and feelings. A sign of emotional tension.

Mars Square Neptune 00°41'

Getting personal with you is a real mistake, for it always manages to plunge you into turmoil. You resent probing on the part of others, yet are fascinated by behind-the-scenes and

so-called "secret" information. You may prefer not to think about anything below the surface, but even this is not a constant, and this inner conflict produces more than its share of tension.

Mercury Square Pluto 01°45'

Tension results when you ignore your own desires (the things you need and want) and take a course of action, job, career, or whatever that can never satisfy. Or worse, you may find yourself in a job that is compromising.

Jupiter Square Neptune 03°05'

You have trouble controlling yourself and tend to fluctuate between uninspired routine and crazy binges. Your sense of responsibility and the way you go about organizing your life seem like a prison sentence. You rule out any possibility of change, all spontaneity. You get so set in your ways that you can't help but revolt and break out. Your flings have a total lack of caution. When they die down, you find yourself seeking refuge in the same old routine, and we begin again.

Saturn Square Uranus 04°07'

You are never funnier, wittier, or more at your mental best than when in a group or lost in a deep conversation with a partner. You may even neglect your personal interests by devoting so much of your time and energy to thinking about other people.

Mercury Opposition Ascendant 06°29'

You have strong family, business, or property ties which affect your public image and goals. There may be tricky finances connected with your business or profession. Obligations involving women, research, or detecting are important in your career.

Pluto Opposition Midheaven 07°58'

Talents and Abilities

Despite whatever problems we may have, there are areas of life where we have clear insight and real talent -- natural ability. When it comes to these matters, our judgment is sharp and we always manage to take charge. We have the knack. It may be as simple as the ability to work hard and accomplish things without something going wrong. An innate sense of the workings of these parts of life makes it easy for us to learn and accomplish things where they are concerned.

You find it easy to work with sensitive material, touching upon the more vulnerable areas of the mind or self. You are able to handle these delicate matters without ever breaking stride, for emotional and tender areas of the human psyche don't phase you. You enjoy getting beneath the surface and have an innate savvy for handling touchy subjects. This is perfect for any research investigation or plain old detective work.

Landscape: Major Life Periods

What follows amounts to a brief overview of the first thirty years or so of your life -- a road map of the years to come. Since childhood, adolescence, and early adult life are so crucial to each of us, an attempt has been made to describe these formative years. Based on the gradual movement of the planet Saturn, this is one of the most tested of all astrological techniques. It is used by almost every professional astrologer as part of any personal consultation. Provided that your time of birth is more or less accurate, you will find this information both accurate and informative. Here is a general life overview, followed by a close-up on your current changes -- what is happening right now. First the overview:

Your Personal Background

A fairly easy childhood up until around the 11-12th year, at which time you will begin to become more subjective and inner-directed. This could mean that your adolescence is somewhat more lonely and less socially oriented than the average. This inner time of exploration lasts until you are about 18-19 years of age. At that time, you will proceed to take hold, discover yourself, and become more outward -- in a rather short time. Your sense of confidence will take hold and build, and the years of introspection will pay off as you begin to reach out. The years from 18 through 25 or 26 will be ones of hard work and continued gains in self-confidence. From the 26th year, your real climb to fame and fortune will commence. Your 30s and 40s will be very good and successful years.

Your Current Situation

Now for a close-up of recent years: while landscape was quite general, the dates given in this close-up should be much more precise. Life is composed of sections of time, each devoted to one kind of activity or another. We go along for a while in one direction until something changes within (or outside) us and we head off in a new course. Some of our earlier activities dry up and new ones spring up in their place. What follows is an analysis of the time period in which you find yourself now. Don't look here for a day-to-day account of life but rather to get a picture of this stretch of time, "these years."

Apr 01, 2021 1st Pass D> (Age 20 11m)

Jul 17, 2021 2nd Pass R< (Age 21 3m)

Dec 25, 2021 3rd Pass D> (Age 21 8m)

The above dates mark the end of a number of years of hard work on your part, sort of an apprenticeship. Now you will begin to come into your own. Opportunities will present themselves. Now is the time to make that outward push and ride the crest of the wave into fame and fortune. This is the best time you will have (for many years) to make progress, push forward, and rise to prominence. It will be hard for you to do wrong, for all the cycles are working in your favor. This is also a time when you may marry or take on a new role in the community or with other people. You will be in demand, and recognition will be forthcoming. Go for it. These next 6-7 years will find circumstances working to help you and raise you up, push you forward. In summary, this marks a more outward and enjoyable series of years, during which things will come to you easily. Friends and a social life are in order and, in general, an easy and untroubled life. These are good years to grow up, be social, recognized, and so on.

The Elements, Modalities and Angularity

Elements, modalities, and house quadrants. These are all techniques used by astrologers to gain a general picture of how a person measures up. How do your planets and houses total up? Which do you have in abundance, and which do you lack, if any? Those with high totals show what we can or must do in life. These are qualities we have. However, most people are more interested by what they lack or want -- their lowest totals. They tend to study their "wants," imitate, and even pretend to have them. The old adage is: we become what we want (or lack), while we do what we can (or have to do). Here are your totals:

Your positivism lets you get right to the point, and you have little patience with those who shilly-shally. You've plenty of enthusiasm and warm up to things and people quickly. You have an inner self-confidence which burns with its own light.

Have Fire

There is an emphasis on communication, expression of ideas, and the connections between things, places, and people. What goes on in your mind is the all-important motivation in your life. You tend towards mental pursuits and admire intelligence.

Have Air

You may have trouble understanding those who seem emotional or sentimental, yet your own practicality and factuality may attract just such types into your life. You may try to balance your lack of intuitiveness with logic and common sense.

Want Water

Common sense and the ability to deal with practical matters may be lacking, and you may wonder at those who spend much time making money, doing life's chores, and attending to basic necessities. You depend on mental activity and confidence.

Want Earth

You are an aggressive prime mover, a starter, able to initiate and get things moving. Not always hot on the follow-up, you may tend to get the ball rolling and get out to move on to other things.

Have Cardinal

You may lack flexibility, managing a foot-in-the-mouth when you least need it. You could have trouble adapting to situations or to the demands of those around you. Perhaps it is not easy for you to communicate or smooth over things.

Want Mutable

Circumstances can throw you into positions where you must use your mind and deal with

communications, service, or enclosed hidden interests. You may deal with education, psychology, spiritual enlightenment or teaching principles and techniques.

Have Cadent

You are inclined to do things from outer necessity rather than for emotional or idealistic reasons. Your theories and mental activities may be fine, but you may lack heart or the fixedness (or the necessary time) to let things ripen.

Want Succedent

Your Burn Rate

We all change, but the question is: At what rate? Some of us tear through change after change, one phase following another, year after year, while others move at a more serene pace. Or, one area of our lives may be hectic and forever changing, while other areas are quite tranquil. Why do some people seem to live lifetimes within lifetimes? Here is an analysis of your particular rate of change or "burn rate," including the particular areas of your life (planets) where you can expect continued change and growth. Areas where there is a very low index of change (indicating clear and easy use of the qualities involved) will also be pointed out. If you have sometimes wondered about the areas of your life where the candles burn at both ends, here are the details.

You have an average amount of change present in life, neither too much nor very little. Specific planets, either high or low, will be presented after this (if any exist).

A majority of your planets in the PRESENT suggests that right here and now is where you like to be and operate, tending neither to spend much time in procrastinating about the future or reminiscing about the past. You like to BE in the moment, of the day.

Planets in High Focus

The mind, and all that is mental, will be the source of continued change and adjustment. Letters, writing, speaking, and all things having to do with communication and cognitive work assume great importance. Your mind tends to be engrossed with thoughts, ideas, and concepts and remains in almost constant flux. Mental learning is an area of preoccupation.

Mercury

Questions of attitude, approaches to problem-solving, and the methods for handling authorities and the law are in high focus and are indicated by a high burn rate regarding your career and making your way through life. Perhaps you will have many jobs or be forever going

through changes and adjustments that affect your career. It could be difficult finding lasting success or prosperity, and the path to it may be areas where you have real experience and particular expertise.

Jupiter

There are big changes (high burn rate) throughout your life in matters of organization and responsibility. It may be difficult for you to learn to be thorough, to finish things, and take care of all the loose ends. You may have a lot to learn regarding what is and what is not essential in life -- separating the wheat from the chaff. Getting down to the nitty-gritty, the bare bones of the matter, could well be a major lesson.

Saturn

Very clear insight, even genius, when it comes to discovering or inventing things. You were born with this fully operational. It requires no teaching. Your low burn rate in this area indicates an ability in electronics, computers, and so on.

Uranus

Your imagination and sense of idealism are near-perfect and true. You are at home in all things mystical or religious, and have this as a natural talent. You have a low burn rate and have clear vision in these realms.

Neptune

An innate and true sense of psychology. Able to penetrate and get to the heart of any matter, without hesitation or wavering. This gift is full-blown and requires no training. Your low burn rate here means that you are always direct and to the point.

Pluto

Patterns: Your Inner and Outer Self

Here we are examining your basic attitude or approach to life, what is called by some the archetype or soul-type. If you know something about your particular soul-type, this can provide valuable information as to the general direction and purpose of your life. In particular, it is important to note the difference, if any, between our outer personality (the way we appear to others) and our real inner self; how are we, in fact, as people get to know us? Not all people are as they seem.

No mistake possible here. With you, the saying "What you see is what you get" is true. You are very much just as you appear to be.

Geo: Trine Helio: Trine

Your Soul Type

You are the eternal patron of just about anyone who will let you look after them -- the original mother hen. You need to feel useful and wanted and are never happy unless you are active and involved. Always the host, you find yourself (in most situations) caring for and taking care of others. In fact, you may tend to worry about others -- making a good impression -- too much. Not content to let others judge you on appearance alone, you would rather be judged by your actions, by what you have done or can do. You are most happy when you can do something for someone and aren't above keeping others in your debt. Your general sense of concern for everything makes you invaluable when anything needs doing and, if left unoccupied, you have been known to even worry for worry's sake. Given only a few facts, you are able to take in a situation and come up with a real picture of what is happening. Never happier than when fully engaged. You will tend to find yourself in responding to others. You can always put your ideas into words and describe or analyze situations for yourself and others. Chances are you will work in one of the many service occupations, taking care of and looking after people. You may feel empty or that there is not much to you, particularly in a group situation where you will not tend to be the center of attention or a great entertainer. Your mind and caring attitude are what others find attractive in you.

You are born to love and care for others and may tend to worry overmuch. Your fear of being left out or not being fully used up in this life can be alleviated by much hard work, by jumping in with both feet and putting your thoughts into action.

Trine Type

The Key to your Personality

Your ambitions and goals are central to your character. Much of your personal life hinges on pursuing your own growth and success. Your very essence and self are most central. Other talents and activities seem to be subservient to these.

Sun

The Personal Hot Spot

Your responsibilities and all that determines and limits you are a prime focus for change whenever it comes around.

Saturn

Interface: Innermost qualities

This feature is based on an intricate analysis of the position of a particular planet in relation to the orbital planes of the other planets. The resulting series of crossings, or nodes, tells us something about the nature of our innermost inclinations (Inc) and disinclinations (Dis). These

indicators are not to be considered at the level of our personality, but rather are deep-seated parts of our innermost character -- our internal biases. These pros and cons are not apt to change in the course of our lifetime.

You have trouble accepting responsibilities. You don't like them. You would rather enjoy yourself at the expense of any obligations, letting them accumulate as they will. This struggle with authority and simple duty makes for great tension and diminished good times. It is hard to have fun when you are ignoring your responsibilities. What we have here is a stalemate.

Venus Dis Saturn

There could be a lot of emotional tension with this combination. You tend to set yourself against whatever forces of change manage to rear their heads around you. This is never more true than where your feelings are concerned. Your attempt to remain untouched and impersonal seems doomed to failure. Everything intrudes, gets too personal, and threatens to hurt your feelings. Your insistence on being an emotional island is probably interspersed with bursts of anger, even fits of rage.

Mars Dis Pluto

You can get stuck in jobs that go nowhere from the point of view of personal growth and change. You tend to wall yourself into a position until nothing can reach or touch you. A lot of tension results, a blow-up occurs, and the whole thing happens again. While it is difficult for you to approach your sensitive areas, it is of great importance that you be able to do so. Here is a situation where one good therapy or another can be of real help.

Jupiter Dis Pluto

You are very deliberate when it comes to words, to what you say and think. When you concentrate, you always come up with what is essential to the matter at hand, ignoring all else. You're anything but "flip," and your more serious approach to ideas, while welcome when there is mental work to do, may not always be appreciated when others are in more social moods. You are so serious. Philosophy, religion, and the like are natural for you.

Saturn Inc Mercury

Your very organized self tends to hide behind duties and responsibilities. This no-nonsense approach manages to push aside many opportunities for others to reach out to you and get close. You resist getting personal and tend to avoid issues that are touchy and might result in confrontation and change. There could be eruptions that overturn all of the more orderly rituals.

Saturn Dis Pluto

Secrets have a short half-life around you, for you have them out in a wink of an eye. You are brilliant when it comes to insights into the mind, psychology, and motivation -- yours or others'. Your intensity is obvious, and some may prefer to keep their distance rather than subject themselves to your laser eye. Nothing is passed over without being turned inside and out. Your analytical powers are superb, and you enjoy finding new avenues of inner growth.

Uranus Inc Pluto

Getting personal with you is a real mistake, for it always manages to plunge you into turmoil. You resent probing on the part of others, yet are fascinated by behind-the-scenes and

so-called "secret" information. You may prefer not to think about anything below the surface, but even this is not a constant, and this inner conflict produces more than its share of tension.

Major Transits Happening Now

Astrologers use the term "transits" to mean the positions of the major planets that are overhead (in the sky) right now and their relationship to our birth chart. Transits are very important indicators of the current situation in which we find ourselves. They can provide insight into what we are now going through. Here are the dates when the next major transits for the planets Jupiter, Saturn, Uranus, Neptune, and Pluto are exact in your chart. Some dates will have already passed and some are still to come. Remember, with these large planets transits don't just happen on the day when they are exact. They cover a wide span of days, weeks, months, and sometimes years, depending on which planet is involved.

In general, transits of Jupiter take from several days to a week or two to complete, while those of Saturn take from two weeks to a month to play themselves out. With the outer planets, the period of activity is even longer: transits of Uranus take about two months, Neptune three or four months, and Pluto takes about a year. Uranus, Neptune, and Pluto move so slowly that the complete transit experience may take a year or two to complete itself. So be prepared to work with these situations.

House Activity and Emphasis

The twelve houses of the horoscope, particularly when they are occupied by a planet, provide a clue to areas of special activity and use. Here is an analysis of house activity based on planet emphasis:

First House: Appearance, Approach

The first house has to do with how we appear or the way we come across, thus our appearance and personality. This is the essential stuff that bubbles up in us spontaneously and that is obvious to others as our trademark or activity. It is what makes us each so personally different. This house rules our personal self and everything about us that draws a reaction from our surroundings or others.

First House

Leo energy is expressive, emotive, and concerned with awareness and a sense of pride and ownership. Here is always a sense of home base or confidence from which the aggressive and outgoing Leo energy operates. Often very artistic, and always theatrical and expressive, this sign is good for creativity and the arts. Warm and big-hearted, this sign belongs to love of animals, sports, children.

Leo

Second House: Possessions, Reactions

The second house is concerned with how we respond to or field whatever impulses or unique and personal qualities we manifest via our first house. This is how we hold or "have" things (possessions, material goods, money, and the like). The second house always refers to how we secure ourselves, the kind of response we get from life and those around us.

Second House

Virgo energy is analytical and precise, always separating what is worthwhile and worth supporting from that which is outmoded and of no further use. A mental sign, where thinking and examining are in high focus. Also, a different kind of mother, here an endless caring and worrying (fussing) about just about everything. Always compassionate and responsive, Virgo energy is service-oriented above all, often thinking and caring more about what others are doing and thinking than for self.

Virgo

Third House: Inquiries, Communications

The third house is concerned with explorations, investigations, and inquiry and research of all kinds. It also rules connections, communications, wires, tubes -- anything that we can get through with our body, mind, voice, letters, what-have-you. It is here that we explore and search for the limits of our life, whatever we are working with at the moment. A very mental house, concerned with finding, furthering, peering, and all manner of questioning. Traditionally rules short journeys, siblings.

Third House

Libra energy is always facilitating and responsive, assuming the appropriate reaction or response to any question or statement. What is sometimes seen as two-faced is only Libra's facility at responding to each in kind. This is certainly the social sign, par excellence. Impersonal and impartial, this sign doles out only what is demanded, never overdoing things.

Libra

Fourth House: Home, Family, Security

The fourth house is where we send down roots, find our limits, and generally secure ourselves. It is the end of any searching we might have done in the third house. Here we find or end our search, settle down, and manage to get in possession of the whole situation. This is our home and the base from which we can work, feel, and experience. This is the root of our experience, the core or thick of it.

Fourth House

Scorpio is the most famous sign. Intense, passionate, and very personal, Scorpio rushes past superficialities and right to the heart of any matter. A loyal friend but a fanatic foe, this sign does well in politics and all areas where someone who dares is rewarded. Often associated with sexual energy, perhaps due to its tendency to strip away veneer, laying bare anything that is there.

Scorpio

You may go through a lot of changes that affect your sense of security. Your home and family situation could be a focus for growth and real learning -- an area of great sensitivity and vulnerability.

Pluto in Fourth House

Fifth House: Expression, Creativity

The fifth house has to do with awareness, emotion (to move out), and expression (to press out). Here there is always a growing sense of self-confidence and even a pride of ownership, since we begin to recognize and own our experience. We know that we have had or are having an experience. All forms of expression and offspring are connected to this house -- children, animals, creative expression, and so on. A sense of direction and ownership takes hold at this point in our experience.

Fifth House

Sagittarius is nothing if not direct, candid, and to the point. Sometimes harsh, this energy always is concerned with the absolute truth of the subject at hand. Associated with philosophy, religion, and all things that last, Sagittarius energy is always welcome in politics as well as social and community endeavors, where its basic fairness and evenhandedness is helpful.

Sagittarius

Sixth House: Responsibility, Work, Health

The sixth house has to do with salvaging and preserving what is good and healthy in our experience. Here we separate the wheat from the chaff. We begin to care for ourselves and our experience and thus health, nutrition. The idea here is that we are able to analyze our experience and have thoughts about what is pure and what is not. The sixth house is an attempt to save the heart of an experience, one that already by that attempt is beginning to pass or not cohere.

Sixth House

Capricorn is the business energy of the zodiac, for it is the very opposite of the emotional Cancer. Given to clear-headedness and practical insight and vision, this sign always takes a distanced perspective, a cool appraisal. Logical and painstaking, Capricorns love hard work and earned results. Money and things in general are very important.

Capricorn

You always find support from others when you turn your attention to health, food, nutrition, and areas where service or attention to detail are in high focus. You may enjoy working with a group of others where you can exercise your discrimination.

Moon in Sixth House

You are innovative when it comes to self-analysis and self-care -- food, diet, health, and so on. You can see new ways to make use of the status quo. An unconventional approach to working for/with others may require a special work situation for you.

Uranus in Sixth House

You are very imaginative when it comes to your health, the food you eat, and how you take care of yourself. Quick to get the picture, you may find yourself helping others see the benefits that proper care (mental, physical, and such) can bring.

Neptune in Sixth House

Seventh House: Relationships, Other People

The seventh house is the house of partnerships, relationships, social life, and all that carries us beyond our personal self into an awareness of other people, community, and the like. This includes spiritual awakening and the discovery that we are more than just our personality. Here we begin to respond to our personal needs (and those of others) for the first time. We can see what is going on and are committed to it; thus, marriage and yoga, or union, is indicated in this house.

Seventh House

Aquarius, the sign of humanitarian goals and altruism. Always impartial and nonsectarian,

Aquarian energy is communal (even global). The focus is on the goal, and the goal is always one that is for the many and not the few. Thus this sign is connected to far-seeing visions, world views, and group work of all kinds. This sign tends towards coolness, independence.

Aquarius

You love to communicate and discuss ideas with other people. Your ideas are always fair and impartial, especially when it comes to other people, the social scene. You are at your mental best when you are communicating with others.

Mercury in Seventh House

You love social life and relationships of all kinds -- partners, marriages, teachers, and such. You are very responsive yourself and value this in others. You don't play favorites and are quite impersonal when it comes to your responsibilities.

Venus in Seventh House

Eighth House: Business Savvy, Elimination

The eighth house, traditionally the house of death, is concerned with getting rid of excess parts of ourselves that we see we no longer need. Thus this house also covers initiation and any activities where we are transforming toward a more integral position, getting to the heart of things. The no-nonsense quality of the eighth house makes it good for business ventures since here we are stripping away the dross to reveal the truth or essence of the subject.

Eighth House

Pisces energy runs deep and toward the psychological -- whatever is beneath the surface. This sign is understanding, patient, and long-suffering. Pisces tend to absorb all the little barbs and digs coming from outside. They always have their mind on an inner goal, something more important. They are very forgiving and accepting -- giving of themselves for the sake of more important issues.

Pisces

"What you see is what you get" is not enough for you. You want more than appearances and are willing to dig down to get at the heart of things. You work through all that is superficial, no matter what kind of personal sacrifice is required.

Sun in Eighth House

Ninth House: Religions, Philosophy, Ideas

The ninth house covers long journeys and religion (the longest journey of all). Here is what remains of the purification that takes place in the eighth house -- the seed, or essence, of an entire cycle of experience. Religion comes from a Latin word that means to bind back, and thus refers to all things that last or endure, such as the truth. Essential ideas, philosophy, and all that is the very heart of things belong here.

Ninth House

Aries is the sign of the pioneer and leader. It is always impulsive, concentrated, and spontaneous. Act first and think about what you have done later. Rushing in where others fear

to tread, the Aries energy is attention-getting. It always provokes a response from the surroundings, from others. There is something essential and instigative that starts or causes something else to happen -- a reaction or response.

Aries

You may end up traveling the world. An inner urge to find the very heart of truth in all things may propel you endlessly. You are very motivated when it comes to philosophies, religion, and all things essential and lasting. No superficiality.

Mars in Ninth House

Your devotion and search for truth may carry you across the globe and certainly to the far reaches of philosophy and religious thoughts. Your career may hinge on your need to always get at the seed, essence, or heart of every question.

Jupiter in Ninth House

Religion, philosophy, and truth are essential to your life. You are painstaking and deliberate when it comes to sorting through ideas and values for what is lasting and solid. You may appear to others as too sober or religious.

Saturn in Ninth House

Tenth House: Practical Vision, Vocation

The 10th house is a house of practical vision and clairvoyance, for here we can see clearly what is. Reputation and career are often connected to this house, since the areas where we can see with greatest clarity are those we most often can put to use to make a living. In summary, this house is where we have real vision and can see to do and work. Planets transiting this house may provide moments of insight and clear-seeing as well.

Tenth House

Taurus manages to respond, possess, and "have" just about everything possible. This is a nurturing and fertile sign in that any seed or impulse is cradled, bringing forth growth and development. Taurus is the way we "have" things, how we possess and acquire things. There is something gentle, regular, steadfast, and determined about Taurus. Always accepting, mothering, providing a base for... a matrix or womb where growth takes place.

Taurus

Eleventh House: Dreams & Visions, Community

The 11th house has to do with putting our visions and dreams to work. We have been on the mountain and had a vision (10th house). Here we take our vows never to forget what we have seen and to work hard to make these dreams into reality. Thus this house has always been connected with altruistic and humanitarian goals and trying to set them in motion. It is the house of friends and community, because when we are powered by a real insight or vision we share with all -- irrespective of differences.

Eleventh House

Gemini is concerned with connections and communication of all kinds -- letters, wires,

telephones, voice, thoughts, writing, and mental processes in general. Gemini is the gadfly, the communicator, the gossip of the zodiac. Searching conversations, scientific inquiry, research, and so on belong here. Gemini energy is unattached, independent, and inquisitive.

Gemini

Twelfth House: Sacrifice, Psychology, Acceptance

The 12th house is about all that we go through in order to make our dreams into reality and manifest them in the world around us. It covers what we are willing to put up with, the sacrifices we will make in order to bring across what is really important. This is connected to prisons, institutions, betrayal, self-undoing, and the like, because it is here that we must choose to take some possible abuse for the sake of the message we are carrying, or blow it all away with a negative reaction.

Twelfth House

Cancer is the mother of the zodiac, always making a home, protecting and providing for others. A sensitive sign where feelings and real experience count more than cold logic. It doesn't get any more physical and emotional than here. This sign has a sense of substance, a home base or foundation. Cancer energy is always limiting, bringing us down to Earth, grounding our every thought in experience, in substance.

Cancer
