Introduction

Astrology is as old as measured time. Although there are many different approaches to astrology, all astrologers appear united in the idea that there is a connection between the heavens and the Earth -- they share one common space. For centuries there has been a misunderstanding concerning the nature of astrology to the effect that the heavens somehow "influence" events here on Earth. This theory of celestial influence has penetrated into the modern world until today it is the main concept or idea of astrology supported by the public -- the lay astrological audience.

Professional astrologers do not hold with theories of celestial influence. Instead, the modern astrologer conceives of the heavens and Earth as united, interpenetrating, and sharing a common space and time. The great cosmic or celestial events happening around and beyond the Earth (eclipses, lineups, and so on) are not seen as CAUSING events to occur on Earth, but as great signatures of events ALSO happening here on Earth. In other words, there is no "cause" in the heavens followed by an "effect" here on Earth. Instead, both planetary and earthly events happen simultaneously and are mutually reflective. Neither is the cause of the other; both are the product of the moment, one acted out in the heavens above, the other here on the Earth below.

While astrologers don't feel that heavenly events are the cause of events here on Earth, they do feel that specific heavenly events are enacted here on the Earth too -- at the same moment. In other words, there is only one grand "play." The great drama enacted in the sky is also acted out (in exact detail) here on Earth in the same instant. Another way to say this is that the Earth is part of the cosmos and shares in that cosmic moment. Scientists have been discovering (for example) that sunspots, solar flares, and solar activity have a very definite (and almost immediate) effect here on Earth. Astrologers tend to feel that all major cosmic events such as eclipses are interactive; they represent an activity also taking place within us and our consciousness.

In summary, astrology is a study of heavenly cycles and cosmic events as they are reflected in our earthly environment and vice-versa -- a vast cosmic clock. Astrologers find the cosmic patterns revealed in the rhythmic motions of the planets a great help in shedding light on the seeming helter-skelter of everyday life. Astrologers may have their heads in the heavens, but only to better guide their feet here on Earth.

We hope you enjoy your Kundali profile. It has been calculated using sophisticated astronomical formulae to ensure high accuracy. On the next page you will find a list of the zodiac positions of your natal planets along with the house cusps for your birth moment.

Your Rising Sign

First let's take a quick look at your ascendant, or rising sign. Astrologers want to know what zodiac sign is rising at birth, since this gives a picture of the way you appear or come across to others.

You come across as emotional and reactive. You sense things rather than think them through. You tend to mother and include everyone within your protective envelope... are more comfortable in this role.

Planet Aspects

The Lights: The Sun and Moon

At the time of our birth, the planets (through their configurations and relationships) tell us something about how things were when we were born. Each planet points to special qualities within us. Yet, of all the planets, the two most important planets to astrologers are the "lights," the Sun and the Moon. From where we stand here on Earth, the great shining Sun by day and the reflecting Moon at night are our constant companions. They have much to tell us as to where we have been and where we are headed.

The Sun: Your Self and Future

From the Sun comes light, that which draws us into life. The Sun represents all the changes we have not yet taken, that part of us that we have not yet experienced but are headed toward. The Sun represents our identity, or self, in that it is toward these that we are moving and developing. Thus, it also represents that which we will become: older people, authorities -- those we look toward, or up to. Our essence, or future. Teachers, gurus, and older (more experienced) people are represented by the Sun. The Sun is "hot stuff," those further up the road of life experience.

You are open-minded and democratic, enthusiastic, and have a definite sense of mission. Above all, you are a progressive and enjoy putting into practice that which is good for all. Your altruism could appear as coolness. At home with different cultures, peoples, and lands, you love to work with (and in) groups.

Sunii in Aquarius

You push hard, but much energy is wasted because you tend to lack direction and planning. You often work against the way things are: authorities or the status quo. It may be difficult for you to coordinate your ambitions with your actual actions and feelings. You tend to hobble yourself emotionally. Your drive and passions put you at odds with authority figures time and again. This tendency towards clashes and emotional confrontation does exist, and at these times you can be your own worst enemy.

Sunii Square Mars

Being successful in life is easy, for you have a built-in sense of how to approach and

unravel even the most difficult problems. You have an instinct for justice and the law, and you always know how to approach a problem from just the right angle. This ability makes you a natural counselor or guide for others, in particular regarding vocational matters. Working with and helping older persons is also suggested.

Sunii Trine Jupiter

You have high ideals and an ability to enchant others with your words and images. Your presence has a way of easing things, helping those around you let go of any differences and stand behind what unites us all. You hold your ideals up for all to follow and may be drawn to spiritual authorities, teachers, and older persons, men in particular. All that is mystical and transcendental (spiritual in the best sense of that word) is your appointed territory. You feel at home in these transcendental realms.

Sunii Conjunction Neptune

You find it easy to work with sensitive material, touching upon the more vulnerable areas of the mind or self. You are able to handle these delicate matters without ever breaking stride, for emotional and tender areas of the human psyche don't phase you. You enjoy getting beneath the surface and have an innate savvy for handling touchy subjects. This is perfect for any research investigation or plain old detective work.

Sunii Sextile Pluto

The Moon: The Support System

Here is information about the kind of environment we create around us, our support system. It is not only the surroundings that we set up today, but the Moon also represents our past, the particular history and social background out of which we grew. Aside from our social background, the Moon governs all of the old habits that we have grown beyond. We tend to look down on, or back on, our Moon. It represents those experiences out of which we have come, all those younger souls who are unconscious, or "sub" conscious to our own level. This is why it is said that the Moon is a mystery planet, for it is both our parent and our child: our parent in that out of it we were born, our child in that we can't but respond to others who are now living as we once did.

You like beautiful surroundings, everything that is calm, tasteful, and harmonious. You are very giving, conciliatory, and even flattering in relationships, able to adjust to any situation. Reflective, tactful, you are able to please others. Above all, you are forever charming and gracious. Also ingratiating and inscrutable.

Moon in Libra

You find it easy to work with other people and tend to pour a lot of energy into those around you. Your home and surroundings reflect this. When it comes to teaching or coaching younger people, you are a natural, always able to motivate and inspire others. With your powerful spirit, you enjoy your strong emotions and have an active social life as well.

Moon Sextile Mars

You have little use for tradition, history, and the past, in general. Your autonomy and

nonconformist attitude tends to ignore the feelings of others. You seem to enjoy confrontation, going out of your way to challenge whatever is traditional and customary. Don't be surprised if those around you won't always give you the support you feel you deserve.

Moon Opposition Uranus

You keep your feelings and emotions to yourself and resent any attempt to analyze or probe them. Your home and surroundings are tidy and air-tight, as well. However, you don't mind probing and dissecting the lives of others. This can't help but produce a strain in your relations with others, and you probably get very little support for your detective work. These two parts of you which seldom meet cause constant tension, resulting in periodic explosions.

Moon Square Pluto

Everything seems to conspire to put you in the limelight. You always come off well in a group and manage to get your ideas across.

Moon Sextile Ascendant

The Inner Planets: Mercury and Venus

The planets Mercury and Venus have more to do with our internal and personal life than with life outside us. These inner planets are located between the orbit of the Earth and the Sun. We can look to qualities that are inside us. Venus indicates how we appreciate and measure our experience, how we value life. Mercury tells us something about how our mind works, how we think and communicate -- our intrinsic brightness.

Mercury: The Mind and Communication

Mercury is the light in our eyes, the ever-changing consciousness within us that moves from idea to idea. Thus Mercury has always represented thoughts, ideas, and the mental process in general. It governs not only ideas, but communications, too. Communications -- by phone, letter, spoken, or however -- are ruled by Mercury. Also thoughts, connections, phone wires, and everything that connects and conveys -- even conversations.

You are an intuitive rather than a rational thinker, and psychological thought (the psyche), mysticism and religion are natural. You love poetry and music, tending to feel or sense with your mind the truth of a situation. You are very sympathetic and understanding and have kind thoughts. Compassionate.

Mercury in Pisces

You have a love affair going with the mind and you value all of its offspring: words, ideas, thoughts, and such. And you love to talk. In particular you appreciate good conversation, and you feel that stimulating mental adventures (either alone or with others) are among the most exciting experiences life offers. You have a built-in sense of discrimination when it comes to the intellect -- all mental activities.

Mercury Conjunction Venus

You have a hair-trigger temper and it takes little to set it off. Your sharp-tongue is well-known and you use it before you have time to think, resulting in little mental and verbal explosions that you regret later. The sad part is that half the time you don't even mean what you may have said in anger. What is clear to those around you is that you communicate as much with your feelings as with words. People learn to look at what you do, rather than what you say. Your mind is very, very sharp. The less said the better.

Mercury Square Mars

You enjoy working with your mind and can usually find a solution to even the worst problems. You like to solve puzzles and dilemmas, yours or others'. Your skills in this regard make you expert at counseling and guiding others. Fine verbal skills and a natural sense of justice makes legal work a distinct possibility. Working with laws, natural or man-made, amounts to a real talent. You also have a great interest in ideas, the more true and lasting the better. Religious concepts will be a lifelong concern for you.

Mercury Trine Jupiter

Venus: Values and Discrimination

Venus rules our values and sense of appreciation. When we appraise or appreciate something, whether that be another person or a new car, this is Venus -- the sense of love and compassion we may feel. By the same token, this planet rules enjoyment too. Whether it be self-appreciation or just plain old decadent self-enjoyment by having a good time, this is Venus. When we go shopping or are on a spending spree, it is Venus that allows us to appreciate and value all the good things of life.

You have deep commitments and appreciate sacrifice and duty on the part of others. At home in the world of the dreamer and mystic, you have great intuition. You are always willing to sublimate and take the back seat. Domestic at heart, you love family life. A true romantic. Musical, psychological, poetic, gentle.

Venus in Pisces

You love words and ideas and sharing them through writing, speaking, and so on. You love to talk. You appreciate and value the intellect and all mental activities, have great taste and an eye for all that is fine. You are sharp when purchasing, a connoisseur.

Mercury Conjunction Venus

What you don't love is the parade of emotions -- directness from others. What you do love and appreciate may not be as clear to you as what you do not love. You are troubled by all that gets too pushy, physical, and gushy. About this you are clear. Sports, ordeals of bravery, and all that is too physical is objectionable. Given the world as it is and your predisposition, a certain amount of emotional tension is unavoidable.

Venus Square Mars

You have an innate love of the law and working things through, and you are not put off by problems and obstacles. On the contrary, you look forward to solving them. You have the ability to work with others, in particular regarding vocation or career guidance. You can advise

and guide in matters requiring work-related decisions. Others find you a generous and loving person. You always share what you find and have a lucky streak too.

Venus Trine Jupiter

The External Planets: Mars, Jupiter, Saturn

The major planets outside the Earth's orbit (external to us) are Mars, Jupiter, and Saturn. These are the planets of the outer world -- life as we find it outside ourselves. Mars tells us something about the drive and energy we have, Jupiter shows us how to best channel that energy, and Saturn decrees what sort of material or territory we will be passing through. Again: Saturn tells us about the territory we will be going through, Jupiter the way or path through it, and Mars what kind of push or drive we can count on to keep going.

Mars: Drive and Emotions

Mars is the planet of emotion and inner motivation or drive. When we search for the meaning of something, life or whatever, it is Mars that urges us on, keeps us searching. Mars also drives us against things, too and sends us into war and combat. The urgency of Mars, the search for meaning, is identical to the need for union, yoga, and marriage. Mars is the planet of union, and marriage is the most common form of yoga. When we have questions about the opposite sex, we are looking at the planet Mars.

You possess a powerful, persistent drive and are a hard, steady worker. Others may find you deep, with a sense of mission and mystery. You are willing to do work others would not go near, quietly bending things to your will, having it your own way. You have strong sexual energy, too, and enjoy getting down to the nitty-gritty.

Mars in Scorpio

Your drive to succeed is strong, but you often push yourself in a direction against your own best interests. Your ambitions may find you at odds with authority figures again and again. A tendency towards arguments and emotional drama exists.

Sunii Square Mars

A born coach or teacher, you are at home in the physical and "doing" areas of life. An inspiration and driving force in the lives of others. Quite able to manage a very active and strong emotional life. Strong spirit. Attractive. Direct, perhaps loud.

Moon Sextile Mars

You are sharp-tongued. Arguments and debates are probably life-long companions. You communicate with your emotions and sheer drive as much as by words and thoughts. Your verbal and mental presence (by sheer insistence) is something to behold.

Mercury Square Mars

You may not like displays of emotion and pushy people, or at least find them challenging and thought-provoking. Your basic drive and ambitions may tend to ignore or brush off your

more caring and loving qualities. Emotional tension.

Venus Square Mars

You put a lot of thought and energy into being different, avoiding the commonplace with great determination. Your drive to innovate, invent, and find new ways to use things is both well coordinated and intense. You could be an excellent teacher and innovator in areas connected to electronics, computers, and communications. You may love to travel and are quite energetic, even athletic. You have a strong urge to be different, to do something different.

Mars Trine Uranus

You come on very strong. You have great confidence and a "take charge" sort of manner. You are a great doer, and others accept your commanding nature. You are a good team player.

Mars Trine Ascendant

Jupiter: Career and Life Path

Jupiter is the planet of success and simple survival, the way we have to solve the problems that confront us. Thus Jupiter has to do with the way in which we can be successful, our vocation. The Hindu word for Jupiter is Guru. Jupiter is the guru and guide, the way we go through life, our life path or vocation. Jupiter is the method each of us has for dealing with the laws of life, our Saturn, or limitations. Jupiter is the light or path. Jupiter provides us with our sense of direction, the path we are on, the way we handle life. It affects how we approach life's problems. It has always been an indicator of how successful we may be, our vocation.

You could enjoy a career working with people as a go-between, negotiator, or mediator, for you can be all things to all people -- the mirror. You are not interested in what runs deep, but prefer to control what goes on at the surface. That's enough for you. Open and not self-centered, you are a natural diplomat.

Jupiter in Libra

You have a sense of justice and an innate ability to understand the law, whether natural or manmade. Showing others the way through or beyond the problems in their lives comes easy, for you sense how to manipulate the opportunities of life. Lucky.

Sunii Trine Jupiter

Good ability to "get the picture" (the gist of things) and to communicate this to others. In fact, helping others to find their way through life (for example via vocational counseling) is indicated. Religious ideas and concepts are natural.

Mercury Trine Jupiter

Born lucky. A natural when it comes to finding the pot of gold at the end of the rainbow. Very generous with others. Love to spread the good things around. A natural talent for finding your way past the pitfalls of life. A love of travel and puzzles.

Venus Trine Jupiter

Mass psychology (what motivates people) is something you understand. Your career may well be in managing or working with people within a psychological context. You would make a

good teacher in these areas too. Counseling or helping people who are in crisis or working out sensitive issues are careers where you could excel. You have a way of sifting through the garbage and coming up with whatever is meaningful or relevant.

Jupiter Sextile Pluto

Your career may well be at the expense of relationships and a social life. Work, home, and family are important to you. Others and the social scene don't concern you.

Jupiter Square Ascendant

You do best sticking close to home and family, and you enjoy all things domestic and security-based. You would do well working out of you own home, having a home business.

Jupiter Opposition Midheaven

Saturn: Responsibilities

The process of finding out who we are (self-discovery) starts when we come to grips with whatever problems life presents to us and begin to get a handle on them. In other words, if we have not dealt with Saturn, or time (that is, if we don't have some control of time), there is little opportunity for other questions. Saturn rules the laws and limitations of this material world we all live in. Saturn indicates where we are bound to learn, the narrowness that makes our way felt, the walls that make homes possible. Saturn holds us together as much as apart. Saturn is said to be the great teacher, the planet that keeps us from getting carried away in one direction or another. Although it always seeks to limit and determine any thought, word, or action, it also defines and clarifies. Saturn is called the prince of the material world.

There could be difficulty with long-term goals and philosophies. You don't trust them. Nearsighted, with your nose to the grindstone, you need to travel and explore the length and breadth of the mind and world. Open up. Learn to value freedom, frankness, independence. Look up!

Saturn in Sagittarius

The Outer Planets

In the previous sections, we have dealt with planets that we can see with our naked eyes. In general, these planets refer to life as we know and live it and are the so-called historical or classic planets. Beyond these are three planets that are not visible in the sky and which have cycles longer than the average human life span. Since they are beyond Saturn or time, astrologers call them the trans-personal or transcendental planets -- the planets beyond the physical. One of the ways astrologers learn something about our life beyond time (eternal life) is through these three outer planets: Uranus, Neptune, and Pluto. Here we find information on how we discover ourselves (Uranus), how we understand and accept these discoveries (Neptune), and, in time, how we depend and identify with them (Pluto).

Uranus: Break-Thrus & Insights

Our responsibilities can tend to weigh us down, and we each have our particular ways of getting around (or breaking through) the mass of obstructions that tends to congeal around us. The planet that has to do with how we get beyond the difficulties and problems life presents us is Uranus. Here is the way insights come to us, how we discover or come to know and understand ourselves. It has to do with finding new uses for old things, and it rules inventions and sudden insights into our life -- everything that is unusual, eccentric, and out of the ordinary. It is the reverse of the status quo and is always unconventional and heretical. Uranus is, in many ways, the opposite, or undoing of Saturn.

You are innovative when it comes to leadership, new starts, pioneer-type projects. You have bold and startling insights and tend to break away from tradition. You find freedom in sports, exploration, impulse-buying, and getting out. A standard bearer. You have insights into energy and action.

Uranus in Aries

Your independence and general unconventionality may sometimes be offensive to others. You like to go against the grain, break free, and relish the unusual and different. You may rebel against tradition, the past, history, and the like.

Moon Opposition Uranus

Powerful urge to be an innovator. Sudden breakthroughs, flashes, or insights. Avoid the common and seek out the unusual, exotic, and unique. Travel to far-off or out-of-the-way places. Energetic/athletic. Inventions with computers and electronics.

Mars Trine Uranus

Your passion for freedom and independence stops short of the personal and private areas of your life. You don't feel so free when things get psychological and analytical. You tend to rebel against all interaction that gets close and personal. Feeling vulnerable or exposed causes you to freak out and break away.

Uranus Square Pluto

You are probably very witty and prefer an unusual method of presenting yourself or communicating to others. Original and quick with words and ideas. Unconventional.

Uranus Trine Ascendant

Neptune: Ideals & Imagination

Even the most hard-nosed of us have moments of real understanding, when things are seen as linked together and one piece. We stop getting the idea in little flashes and just get the whole thing. It dawns on us. We each have our own way of letting go, having communion, and (as the poet wrote) letting "the dewdrop slip into the shining sea." These moments and this state of mind are, in fact, the source for all our imagination. There are many ways of seeing through the separateness in the world to the unity behind it.

The age of Aquarius marks the ideal. The world community networking with itself. Altruism. Religion is science. Group work is in full swing. Cooperation. Impersonal sharing. Emotions are controlled and managed. The world on the improve. Global co-ops.

Neptune in Aquarius

You have a great imagination and probably can entrance an audience in short order with your visions and ideals. You tend to expect the best from others and may find guidance from a spiritual teacher or older person. You are a dreamer, a high floater.

Sunii Conjunction Neptune

Pluto: Inner Change and Growth

Pluto is the planet of profound change, starting deep within us and moving toward the surface. It often touches upon the most sensitive psychological areas inside us. Once touched, we have no choice but to change and grow. The most sensitive of experiences, the times of greatest vulnerability, are times of complete identification with an experience, a person, or a thing. We know in these instants that we are looking at our self, what we are. The most personal of experiences is one of complete identification with a person, moment, or idea. Perhaps this is only possible for most of us when we look into our child's eyes, and then only infrequently. Love is not the experience here, but total identification. This is very sensitive stuff. To touch upon this material is to go through deep inner change and transformation -- inner alchemy. Identification and experiencing that life is our own creation and that, in fact, you are I and I am you. This experience breaks us down and humbles. When we touch upon this experience, we cannot but die to what we have been thinking and doing up to now. It reduces us to our most sensitive because -- in a flash -- we see or remember that it all is us, our life.

You are passionate in your search for truth and essence. Nothing superficial or ephemeral holds your attention. Your intense analytical approach to life cuts through to the heart of things. This directness may not always endear you to others.

Pluto in Sagittarius

Innate intensity and seriousness are visible to all. A sense of the eternal aspects of life makes authority and leadership positions natural and unavoidable. A gut sense of how to act in stress situations. Lots of charisma. Power.

Sunii Sextile Pluto

Emotional stress stemming from your insistence on analysis and psychological probing at the expense of feelings -- yours and other people's. No one will support it. Your sensitivity and vulnerability often find you at odds with the group or with others.

Moon Square Pluto

Organizational genius, especially when it comes to managing other people. You understand what motivates others from the point of view of mass psychology and can get at the heart of things in an instant. You have a great talent for social leadership.

Jupiter Sextile Pluto

Your sense of originality and insight does not go so far as to inquire into areas of

psychological sensitivity and vulnerability, which you tend to leave alone. This can produce tension to the degree that you possess a need for inner growth and change.

Uranus Square Pluto

The supportive help of women or a girl can be an important factor that will affect business or reputation and increase your sense of security. You are a fine psychologist, researcher, or detective and are good at dealing with joint or others' finances.

Pluto Trine Midheaven

Challenges and Abilities

Focus

These are areas of life where we show intense focus and activity. For better or worse, these qualities stand out and are obvious to all those who come to know us. They are very clear parts of our character.

You have a love affair going with the mind and you value all of its offspring: words, ideas, thoughts, and such. And you love to talk. In particular you appreciate good conversation, and you feel that stimulating mental adventures (either alone or with others) are among the most exciting experiences life offers. You have a built-in sense of discrimination when it comes to the intellect -- all mental activities.

Mercury Conjunction Venus 00°23'

You have high ideals and an ability to enchant others with your words and images. Your presence has a way of easing things, helping those around you let go of any differences and stand behind what unites us all. You hold your ideals up for all to follow and may be drawn to spiritual authorities, teachers, and older persons, men in particular. All that is mystical and transcendental (spiritual in the best sense of that word) is your appointed territory. You feel at home in these transcendental realms.

Sunii Conjunction Neptune 00°50'

Challenges

Life can be challenging, and things are not always easy. The major challenges in a natal chart are where we can expect increased activity and personal involvement -- ready or not. These critical areas of life can be difficult, and the resulting confusion and possible obscuration often makes it hard for us to see and act with normal clarity. Therefore, when it comes to the following factors you may wish to exercise caution and extra patience.

Your career may well be at the expense of relationships and a social life. Work, home, and family are important to you. Others and the social scene don't concern you.

Jupiter Square Ascendant 00°44'

You have little use for tradition, history, and the past, in general. Your autonomy and nonconformist attitude tends to ignore the feelings of others. You seem to enjoy confrontation, going out of your way to challenge whatever is traditional and customary. Don't be surprised if those around you won't always give you the support you feel you deserve.

Moon Opposition Uranus 02°17'

What you don't love is the parade of emotions -- directness from others. What you do love and appreciate may not be as clear to you as what you do not love. You are troubled by all that gets too pushy, physical, and gushy. About this you are clear. Sports, ordeals of bravery, and all that is too physical is objectionable. Given the world as it is and your predisposition, a certain amount of emotional tension is unavoidable.

Venus Square Mars 05°12'

Your passion for freedom and independence stops short of the personal and private areas of your life. You don't feel so free when things get psychological and analytical. You tend to rebel against all interaction that gets close and personal. Feeling vulnerable or exposed causes you to freak out and break away.

Uranus Square Pluto 05°24'

You have a hair-trigger temper and it takes little to set it off. Your sharp-tongue is well-known and you use it before you have time to think, resulting in little mental and verbal explosions that you regret later. The sad part is that half the time you don't even mean what you may have said in anger. What is clear to those around you is that you communicate as much with your feelings as with words. People learn to look at what you do, rather than what you say. Your mind is very, very sharp. The less said the better.

Mercury Square Mars 05°34'

You keep your feelings and emotions to yourself and resent any attempt to analyze or probe them. Your home and surroundings are tidy and air-tight, as well. However, you don't mind probing and dissecting the lives of others. This can't help but produce a strain in your relations with others, and you probably get very little support for your detective work. These two parts of you which seldom meet cause constant tension, resulting in periodic explosions.

Moon Square Pluto 07°41'

You push hard, but much energy is wasted because you tend to lack direction and planning. You often work against the way things are: authorities or the status quo. It may be difficult for you to coordinate your ambitions with your actual actions and feelings. You tend to hobble yourself emotionally. Your drive and passions put you at odds with authority figures time and again. This tendency towards clashes and emotional confrontation does exist, and at these times you can be your own worst enemy.

Sunii Square Mars 08°05'

Talents and Abilities

Despite whatever problems we may have, there are areas of life where we have clear insight and real talent -- natural ability. When it comes to these matters, our judgment is sharp and we always manage to take charge. We have the knack. It may be as simple as the ability to work hard and accomplish things without something going wrong. An innate sense of the workings of these parts of life makes it easy for us to learn and accomplish things where they are concerned.

You come on very strong. You have great confidence and a "take charge" sort of manner. You are a great doer, and others accept your commanding nature. You are a good team player.

Mars Trine Ascendant 00°24'

The supportive help of women or a girl can be an important factor that will affect business or reputation and increase your sense of security. You are a fine psychologist, researcher, or detective and are good at dealing with joint or others' finances.

Pluto Trine Midheaven 00°35'

Landscape: Major Life Periods

What follows amounts to a brief overview of the first thirty years or so of your life -- a road map of the years to come. Since childhood, adolescence, and early adult life are so crucial to each of us, an attempt has been made to describe these formative years. Based on the gradual movement of the planet Saturn, this is one of the most tested of all astrological techniques. It is used by almost every professional astrologer as part of any personal consultation. Provided that your time of birth is more or less accurate, you will find this information both accurate and informative. Here is a general life overview, followed by a close-up on your current changes -- what is happening right now. First the overview:

Your Personal Background

You are somewhat of a late bloomer, spending your childhood up until the age of 11-12 in a pleasant and more social frame of mind. At that time you will turn away from the more outward scene and begin to take a greater interest in your inner, subjective life. From the age of 11-12 until perhaps 18-19, you will find yourself ever more on your own, quite inner-directed and always independent. From the age of 19 until 25-26, this will intensify even further and you will examine and explore deep within you. Those who love you may well worry and feel that you are hard to reach and understand. You yourself could feel too much on your own, even alone. This solitary period will end shortly after your 25th year, at which time you will begin to emerge and to build and move outward. Your rise to social and material success will be quite remarkable from that point forward. Your early thirties are years of great success.

Your Current Situation

Now for a close-up of recent years: while landscape was quite general, the dates given in this close-up should be much more precise. Life is composed of sections of time, each devoted to one kind of activity or another. We go along for a while in one direction until something changes within (or outside) us and we head off in a new course. Some of our earlier activities dry up and new ones spring up in their place. What follows is an analysis of the time period in which you find yourself now. Don't look here for a day-to-day account of life but rather to get a picture of this stretch of time, "these years."

Dec 01, 2011 1st Pass D> (Age Before Birth)

Apr 21, 2012 2nd Pass R< (Age Before Birth)

Aug 25, 2012 3rd Pass D> (Age Before Birth)

The date(s) (above) indicate the end of a very outward and perhaps successful period of years for you, during which you may have had an opportunity to establish yourself both in career and reputation. You may find yourself becoming less interested in the outer and social world and more interested in your own inner changes. There will be less of an impulse for recognition along with a growing sense of being by yourself and enjoying it. This coming time will be less outward and may call for a change of approach and perhaps life style. This is not a time of outreach, not the best point to start any great projects. Instead you may wish to consolidate what you now have, pull back a bit, and prepare for a number of years of a more inward and personal nature. This will be a time of introspection, and you may find yourself letting go of plans and projects started in a more outward phase but as yet uncompleted. You may take an interest in your own psyche, religion, and spiritual ideas. This is a time to absorb and take in new impressions and information. In summary, here is a natural breaking-point in life, a time to let go of what has been occupying you for the last years and assume a new attitude. Many people find themselves withdrawing socially and enjoying their own company. In summary: This marks a more inward period that will last 6-7 years, during which you may feel insecure and on your own. Don't expect to make great headway in the outer, social world. Bide your time and prepare for your "coming out" a few years down the road.

The Elements, Modalities and Angularity

Elements, modalities, and house quadrants. These are all techniques used by astrologers to gain a general picture of how a person measures up. How do your planets and houses total up? Which do you have in abundance, and which do you lack, if any? Those with high totals show what we can or must do in life. These are qualities we have. However, most people are more interested by what they lack or want -- their lowest totals. They tend to study their "wants," imitate, and even pretend to have them. The old adage is: we become what we want (or lack), while we do what we can (or have to do). Here are your totals:

There is an emphasis on communication, expression of ideas, and the connections between things, places, and people. What goes on in your mind is the all-important motivation in your life. You tend towards mental pursuits and admire intelligence.

Have Air

Common sense and the ability to deal with practical matters may be lacking, and you may wonder at those who spend much time making money, doing life's chores, and attending to basic necessities. You depend on mental activity and confidence.

Want Earth

Very communicative, flexible, mental, and other-oriented. Perhaps you can be all things to all people, giving them what they require. Probably a smooth talker with a quick wit and ready tongue.

Have Mutable

You may complain of never having any privacy or time to think -- your pattern seems to throw you much in contact with people and the outer world. Being an extrovert, you may have difficulty understanding reclusive types.

Want Cadent

Your Burn Rate

We all change, but the question is: At what rate? Some of us tear through change after change, one phase following another, year after year, while others move at a more serene pace. Or, one area of our lives may be hectic and forever changing, while other areas are quite

tranquil. Why do some people seem to live lifetimes within lifetimes? Here is an analysis of your particular rate of change or "burn rate," including the particular areas of your life (planets) where you can expect continued change and growth. Areas where there is a very low index of change (indicating clear and easy use of the qualities involved) will also be pointed out. If you have sometimes wondered about the areas of your life where the candles burn at both ends, here are the details.

You have a very low burn rate, which indicates a less turbulent and more straightforward life style. Your talents are self-evident and clear. They don't require training and learning on your part in order to put them to use. The particular areas of clarity follow:

A majority of your planets in the PRESENT suggests that right here and now is where you like to be and operate, tending neither to spend much time in procrastinating about the future or reminiscing about the past. You like to BE in the moment, of the day.

Planets in High Focus

Your mind is exceptional in its clarity. All that is mental comes to you without struggle or labor -- ideas, thoughts, mental things of all kinds. The light in your eyes reveals the brightness of your mind to everyone who comes to know you.

Mercury

A real guide or pathfinder, your sense of truth and direction is very clear. You already know the way to accomplish things and solve problems, and you need no education to success. You have a low burn rate when it comes to career and vocational matters.

Jupiter

A great gift for definition and sensing the limits and truth of any matter. Your sense of responsibility is clear and requires no training or education. You have a low burn rate here, a sign of clarity and competence in practical and business matters.

Saturn

You have a high burn rate when it comes to questions of your independence and autonomy. You tend to rebel and buck authority, and this will be a major source of change and adjustment. You will be concerned with issues of freedom and independence far beyond the average person. A passion for inventions, electronics, and the like can also be expected.

Uranus

Your imagination and sense of idealism are near-perfect and true. You are at home in all things mystical or religious, and have this as a natural talent. You have a low burn rate and have clear vision in these realms.

Neptune

An innate and true sense of psychology. Able to penetrate and get to the heart of any matter, without hesitation or wavering. This gift is full-blown and requires no training. Your low burn rate here means that you are always direct and to the point.

Pluto

Patterns: Your Inner and Outer Self

Here we are examining your basic attitude or approach to life, what is called by some the archetype or soul-type. If you know something about your particular soul-type, this can provide valuable information as to the general direction and purpose of your life. In particular, it is important to note the difference, if any, between our outer personality (the way we appear to others) and our real inner self; how are we, in fact, as people get to know us? Not all people are as they seem.

You are not what you appear to be. Your personality, the way the world sees you, appears more independent and outgoing than is the case when people get to know you. An extroverted manner screens a more inward and quiet-seeking self. In other words, you are much more sensitive and concerned about what others think than meets the eye. Although your outer personality may look tough and self-centered, you are more sensitive to the needs and feelings of others than you let on. Whereas your appearance and personality may bring you unwanted attention, the real you prefers to stay out of the limelight. Appearances aside, let's take a look at the real or inner you.

Geo: Square Helio: Trine

Your Soul Type

This is quite a rare configuration. You are at home in the world of concepts and ideas and are able to grasp the gist or whole picture when given just a few facts. Your innate sensitivity to others makes you custom-made for any of the service occupations, where you can diagnose or interpret what others are unable to express. You have as fine a mind as they make and may suffer from over-sensitivity. Characterized by high energy, you tend to be impatient and always eager for a new experience. The experience itself is what is foremost in your mind, not so much what you can get out of it. You seek contact, involvement, and are not much concerned about matters of personal privacy.

You will find yourself giving way to others in almost all situations. You may find that you almost always must be the bigger person, so get used to waiting for and on others. In a word, you will be serving and taking care of others, like it or not. Your ability to manage and supervise people and things, plus a built-in sense of responsibility, make you a unique character. There are not many of your caliber out there when it comes to management.

You do not shine in a social situation, unless you take control, and even then this is no substitute for the animal attraction you may wish you had, but lack. You might better get used to the idea of taking care of and serving others. Your sensitivity to others makes you a perfect host, always helpful and aware of what is needed.

Because you appear so self-sufficient, others may find it very difficult to imagine that you might need love and attention. In a word, you see them before they have a chance to see you. You react to them before they can objectify, or even manage to see your condition. You might as well get used to it.

You reason and analyze endlessly and are never happier than when fully engaged in some project. If not altogether engaged in work, you may tend to worry and have feelings of inadequacy.

It is not easy to judge you on appearances. You may tend to doubt that others can know your value without having seen what you have done and can do. Your accomplishments are your self-image, rather than your personality.

The Key to your Inner Life

Each person has one or more key qualities. Here we are not referring to our appearance or personality, but rather to our inner nature, how we are when someone really gets to know us.

The light in your eyes says it all: your mind and ideas are central to your inner and philosophical life. Communications on an inner and spiritual level are not just important for you, they are indispensable. Mentality is the focus and conduit through which all the other parts of you function and relate.

Mercury

The Key to your Personality

The key to understanding your personality and the circumstances in which you find yourself can be found in the environment or support system that surrounds you. You are very much the creature of habit and habitat, and the encircling network of friends, relationships, and what-not are crucial to your success or lack thereof. You are nourished in great measure by the atmosphere and conditions you are able to set up.

Moon

All parts of your life are touched by your sense of originality and spontaneity. Everything hangs on the innovative and original approach to things and people that marks your style. Questions of freedom and independence are absolutely essential to your life style, and you are quick to rebel when authority cramps these things.

Uranus

The Personal Hot Spot

You tend to take everything with great intensity. Your drive to get at the heart and truth of things is constantly invoked, and serves as a common theme in your life.

Pluto

Interface: Innermost qualities

This feature is based on an intricate analysis of the position of a particular planet in relation to the orbital planes of the other planets. The resulting series of crossings, or nodes, tells us something about the nature of our innermost inclinations (Inc) and disinclinations (Dis). These indicators are not to be considered at the level of our personality, but rather are deep-seated parts of our innermost character -- our internal biases. These pros and cons are not apt to change in the course of our lifetime.

Your conservative values clash with whatever is unconventional and different. You don't value novelty and do your best to ignore changes. You appreciate tradition and regularity, and your value system is dead set against anything new or out of the ordinary. Despite your feigned ignorance to the contrary, you suffer regular infusions of change, which you find very disturbing. New things threaten to overpower you.

Venus Dis Uranus

You can get stuck in jobs that go nowhere from the point of view of personal growth and change. You tend to wall yourself into a position until nothing can reach or touch you. A lot of tension results, a blow-up occurs, and the whole thing happens again. While it is difficult for you to approach your sensitive areas, it is of great importance that you be able to do so. Here is a situation where one good therapy or another can be of real help.

Jupiter Dis Pluto

You waste a lot of energy sailing into the wind and clashing against authority or reality for no good reason. You resent having to get serious, go to work, and take on responsibilities. Your efforts tend to lack the determination and organization necessary for real accomplishment. Very little can be accomplished without some sort of discipline and training, and you resist these like the devil. You avoid work.

Saturn Dis Mars

Your value system has little room for the mystical, much less whatever the psychics are talking about. When these things crop up, you cut them off early on. Your position is simple: dreams, images, spiritual thoughts, and what-not are just not your cup of tea. You don't care for them. And yet, this whole subject fascinates you. There is a siren-like quality to all of this, calling and luring you. Sooner or later, this must be worked through.

Major Transits Happening Now

Astrologers use the term "transits" to mean the positions of the major planets that are overhead (in the sky) right now and their relationship to our birth chart. Transits are very important indicators of the current situation in which we find ourselves. They can provide insight into what we are now going through. Here are the dates when the next major transits for the planets Jupiter, Saturn, Uranus, Neptune, and Pluto are exact in your chart. Some dates will have already passed and some are still to come. Remember, with these large planets transits don't just happen on the day when they are exact. They cover a wide span of days, weeks, months, and sometimes years, depending on which planet is involved.

In general, transits of Jupiter take from several days to a week or two to complete, while those of Saturn take from two weeks to a month to play themselves out. With the outer planets, the period of activity is even longer: transits of Uranus take about two months, Neptune three or four months, and Pluto takes about a year. Uranus, Neptune, and Pluto move so slowly that the complete transit experience may take a year or two to complete itself. So be prepared to work with these situations.

House Activity and Emphasis

The twelve houses of the horoscope, particularly when they are occupied by a planet, provide a clue to areas of special activity and use. Here is an analysis of house activity based on planet emphasis:

First House: Appearance, Approach

The first house has to do with how we appear or the way we come across, thus our appearance and personality. This is the essential stuff that bubbles up in us spontaneously and that is obvious to others as our trademark or activity. It is what makes us each so personally different. This house rules our personal self and everything about us that draws a reaction from our surroundings or others.

First House

Cancer is the mother of the zodiac, always making a home, protecting and providing for others. A sensitive sign where feelings and real experience count more than cold logic. It doesn't get any more physical and emotional than here. This sign has a sense of substance, a home base or foundation. Cancer energy is always limiting, bringing us down to Earth, grounding our every thought in experience, in substance.

Cancer

Second House: Possessions, Reactions

The second house is concerned with how we respond to or field whatever impulses or unique and personal qualities we manifest via our first house. This is how we hold or "have" things (possessions, material goods, money, and the like). The second house always refers to how we secure ourselves, the kind of response we get from life and those around us.

Second House

Leo energy is expressive, emotive, and concerned with awareness and a sense of pride and ownership. Here is always a sense of home base or confidence from which the aggressive and outgoing Leo energy operates. Often very artistic, and always theatrical and expressive, this sign is good for creativity and the arts. Warm and big-hearted, this sign belongs to love of animals, sports, children.

Leo

Third House: Inquiries, Communications

The third house is concerned with explorations, investigations, and inquiry and research of all kinds. It also rules connections, communications, wires, tubes -- anything that we can get through with our body, mind, voice, letters, what-have-you. It is here that we explore and search for the limits of our life, whatever we are working with at the moment. A very mental house, concerned with finding, furthering, peering, and all manner of questioning. Traditionally rules short journeys, siblings.

Third House

Virgo energy is analytical and precise, always separating what is worthwhile and worth supporting from that which is outmoded and of no further use. A mental sign, where thinking and examining are in high focus. Also, a different kind of mother, here an endless caring and worrying (fussing) about just about everything. Always compassionate and responsive, Virgo energy is service-oriented above all, often thinking and caring more about what others are doing and thinking than for self.

Virgo

You have a knack for putting the feelings of a group into words and may serve as a teacher or spokesperson. Communication is one area where you can always get support and backing from friends and co-workers. Historical ideas may interest you.

Moon in Third House

Fourth House: Home, Family, Security

The fourth house is where we send down roots, find our limits, and generally secure ourselves. It is the end of any searching we might have done in the third house. Here we find or end our search, settle down, and manage to get in possession of the whole situation. This is our home and the base from which we can work, feel, and experience. This is the root of our experience, the core or thick of it.

Fourth House

Libra energy is always facilitating and responsive, assuming the appropriate reaction or response to any question or statement. What is sometimes seen as two-faced is only Libra's facility at responding to each in kind. This is certainly the social sign, par excellence. Impersonal and impartial, this sign doles out only what is demanded, never overdoing things.

Libra

You are driven to send down roots, dig in, and find the limits of whatever you are involved in. This urge to be secure always pushes you to always get to the foundation of things. You are motivated when it comes to home and family.

Mars in Fourth House

Your career may be built on your search for roots and security. You find yourself through home and family (all things domestic), and it would be excellent if you could somehow make your living in these areas.

Jupiter in Fourth House

Fifth House: Expression, Creativity

The fifth house has to do with awareness, emotion (to move out), and expression (to press out). Here there is always a growing sense of self-confidence and even a pride of ownership, since we begin to recognize and own our experience. We know that we have had or are having an experience. All forms of expression and offspring are connected to this house -- children, animals, creative expression, and so on. A sense of direction and ownership takes hold at this point in our experience.

Fifth House

Scorpio is the most famous sign. Intense, passionate, and very personal, Scorpio rushes past superficialities and right to the heart of any matter. A loyal friend but a fanatic foe, this sign does well in politics and all areas where someone who dares is rewarded. Often associated with sexual energy, perhaps due to its tendency to strip away veneer, laying bare anything that is there.

Scorpio

You find it difficult to let go, emote, and express your feelings, and tend to be cautious and restrained. Feeling creative may be difficult, for you are very hard on yourself in this area. You may have approach/avoidance reactions with children, animals.

Saturn in Fifth House

You are very sensitive (even vulnerable) when it comes to expressing yourself, getting it out. Periods of intense creativity enable you to go through changes and inner growth. This creative intensity is good for music, poetry, art, and the like.

Pluto in Fifth House

Sixth House: Responsibility, Work, Health

The sixth house has to do with salvaging and preserving what is good and healthy in our experience. Here we separate the wheat from the chaff. We begin to care for ourselves and our experience and thus health, nutrition. The idea here is that we are able to analyze our experience and have thoughts about what is pure and what is not. The sixth house is an attempt to save the heart of an experience, one that already by that attempt is beginning to pass or not cohere.

Sixth House

Sagittarius is nothing if not direct, candid, and to the point. Sometimes harsh, this energy always is concerned with the absolute truth of the subject at hand. Associated with philosophy, religion, and all things that last, Sagittarius energy is always welcome in politics as well as social and community endeavors, where its basic fairness and evenhandedness is helpful.

Sagittarius

Seventh House: Relationships, Other People

The seventh house is the house of partnerships, relationships, social life, and all that carries us beyond our personal self into an awareness of other people, community, and the like. This includes spiritual awakening and the discovery that we are more than just our personality. Here we begin to respond to our personal needs (and those of others) for the first time. We can see what is going on and are committed to it; thus, marriage and yoga, or union, is indicated in this house.

Seventh House

Capricorn is the business energy of the zodiac, for it is the very opposite of the emotional Cancer. Given to clear-headedness and practical insight and vision, this sign always takes a distanced perspective, a cool appraisal. Logical and painstaking, Capricorns love hard work and earned results. Money and things in general are very important.

Capricorn

You love a social life -- friends and relationships play a major role in your makeup. Close bonds (marriage, yoga) are very important to you.

Sun in Seventh House

You never forsake your ideals when it comes to relationships of any kind. Your imagination is at its best when you are being social or relating to others. You have a real vision of what marriage is all about.

Neptune in Seventh House

Eighth House: Business Savvy, Elimination

The eighth house, traditionally the house of death, is concerned with getting rid of excess parts of ourselves that we see we no longer need. Thus this house also covers initiation and any activities where we are transforming toward a more integral position, getting to the heart of things. The no-nonsense quality of the eighth house makes it good for business ventures since here we are stripping away the dross to reveal the truth or essence of the subject.

Eighth House

Aquarius, the sign of humanitarian goals and altruism. Always impartial and nonsectarian, Aquarian energy is communal (even global). The focus is on the goal, and the goal is always one that is for the many and not the few. Thus this sign is connected to far-seeing visions, world views, and group work of all kinds. This sign tends towards coolness, independence.

Aquarius

Mercury in Eighth House

Ninth House: Religions, Philosophy, Ideas

The ninth house covers long journeys and religion (the longest journey of all). Here is what remains of the purification that takes place in the eighth house -- the seed, or essence, of an entire cycle of experience. Religion comes from a Latin word that means to bind back, and thus refers to all things that last or endure, such as the truth. Essential ideas, philosophy, and all that is the very heart of things belong here.

Ninth House

Pisces energy runs deep and toward the psychological -- whatever is beneath the surface. This sign is understanding, patient, and long-suffering. Pisces tend to absorb all the little barbs and digs coming from outside. They always have their mind on an inner goal, something more important. They are very forgiving and accepting -- giving of themselves for the sake of more

important issues.

Pisces

Unconventional in matters of philosophy and religion, you always find new ways to get past the fluff and into what is really important. Your insights into truth and the eternal make you independent and somewhat of a loner.

Tenth House: Practical Vision, Vocation

The 10th house is a house of practical vision and clairvoyance, for here we can see clearly what is. Reputation and career are often connected to this house, since the areas where we can see with greatest clarity are those we most often can put to use to make a living. In summary, this house is where we have real vision and can see to do and work. Planets transiting this house may provide moments of insight and clear-seeing as well.

Tenth House

Aries is the sign of the pioneer and leader. It is always impulsive, concentrated, and spontaneous. Act first and think about what you have done later. Rushing in where others fear to tread, the Aries energy is attention-getting. It always provokes a response from the surroundings, from others. There is something essential and instigative that starts or causes something else to happen -- a reaction or response.

Eleventh House: Dreams & Visions, Community

The 11th house has to do with putting our visions and dreams to work. We have been on the mountain and had a vision (10th house). Here we take our vows never to forget what we have seen and to work hard to make these dreams into reality. Thus this house has always been connected with altruistic and humanitarian goals and trying to set them in motion. It is the house of friends and community, because when we are powered by a real insight or vision we share with all -- irrespective of differences.

Eleventh House

Taurus manages to respond, possess, and "have" just about everything possible. This is a nurturing and fertile sign in that any seed or impulse is cradled, bringing forth growth and development. Taurus is the way we "have" things, how we possess and acquire things. There is something gentle, regular, steadfast, and determined about Taurus. Always accepting, mothering, providing a base for... a matrix or womb where growth takes place.

Taurus

Twelfth House: Sacrifice, Psychology, Acceptance

The 12th house is about all that we go through in order to make our dreams into reality and manifest them in the world around us. It covers what we are willing to put up with, the sacrifices we will make in order to bring across what is really important. This is connected to prisons, institutions, betrayal, self-undoing, and the like, because it is here that we must choose

to take some possible abuse for the sake of the message we are carrying, or blow it all away with a negative reaction.

Twelfth House

Gemini is concerned with connections and communication of all kinds -- letters, wires, telephones, voice, thoughts, writing, and mental processes in general. Gemini is the gadfly, the communicator, the gossip of the zodiac. Searching conversations, scientific inquiry, research, and so on belong here. Gemini energy is unattached, independent, and inquisitive.
